PHILOSOPHY 1 RPE – Rapid Palatal Expander

- Philosophy 1 has a very small innovative profile which allows it to be used in any size palate with exceptional patient comfort.
- Closer to the palate means closer to the center of resistance of the palate suture resulting in a significant reduction in buccal crown torque.
- Rechargeable for additional expansion: the optional R13mm body screw can be changed out right in the office when needed. No additional impressions or delays from the lab resulting in potential relapse.
